• ALWAYS PRE-TEST •
Always pre-test for compatibility with resins and post decorating processes.

Samples available upon request.

MS1680 Economy 3% Silicone Release Agent

MS1680 is a universal silicone type release agent recommended for injection, RIM, rotational molders, extruders and vacuum formers. This product can be used with all common resins. This silicone and all others may interfere with a post decorating step. Care should be taken when needing to paint, hot stamp, vacuum metalize or glue (testing should be performed). Silicone release agents generally are recognized as effective for releasing hard to work resins. In addition to being a release agent, silicones are excellent general purpose lubricants for a variety of industrial applications.

Packaged twelve 16 fluid ounce (9 oz. net weight) cans per case.

**As Low As
20¢/fl.oz.**

CASES AND CANS		
PART NO.	PRICE/CASE	PRICE/CAN

MS1780 Economy Paintable Release Agent

MS1780 is designed to be the most economical paintable release agent we offer, while being particularly suited for all thermoplastic resins and waxes where post decorating is required of the part being molded. This product should not interfere with painting, hot stamping, gluing or vacuum metalizing. Always test this product in your application to insure compatibility. If difficulty is encountered parts can be cleaned with a mild detergent and water or a mild solvent.

Packaged twelve 16 fluid ounce (9 oz. net weight) cans per case.

**As Low As
24¢/fl.oz.**

MS1880 Economy Lecithin Release Agent

MS1880 is recommended as a mold release for all types of injection and compression molded plastics. Finished parts can be hot stamped, printed, metalized or painted. It does not build up on mold cavities. Use sparingly, a thin film is all that is needed. MS1880 does not migrate or drift through the air. It has been found to be useful as a welder's anti-spatter spray.

Packaged twelve 16 fluid ounce (9.2 oz. net weight) cans per case.

**As Low As
21¢/fl.oz.**

MS1080 Paintable Mold Release

MS1080 is our most popular all purpose paintable release agent. It's economical to use, eliminates costly cleanups, and is universally accepted by injection, extrusion and compression molders, permitting high speed production. Does not build up and does not interfere with painting, hot stamping, vacuum metalizing or gluing. It can be used on most substrates including rubber, acrylics, polyesters, polystyrenes, and cellulose.

Packaged twelve 20 fluid ounce (11 oz. net weight) cans per case.

**As Low As
25¢/fl.oz.**

CASES AND CANS

MS610 Economy Silicone Lubricant & Release Agent

MS610 is our most economical silicone spray. It reduces friction and prolongs life of cutting blades, heat sealing equipment, rollers, conveyors and chutes. It is highly recommended for use with stainless steel, chrome, brass, aluminum, glass, rubber, fabric and most plastics. It provides release and prevents sticking in gluing, sealing and molding operations.

Packaged twelve 20 fluid ounce (11 oz. net weight) cans per case.

**As Low As
15¢/fl.oz.**

MS2000 TFE-Coat All Purpose Dry Film Spray

MS2000 forms a bonded Teflon® coating that reduces friction on most substrates and prevents a buildup of product on chutes, hoppers, guide rails, etc. It is a dry lubricant and has applications where silicones or other wet lubricants cannot be used. Once sprayed on, and after air curing, it forms a true, dry-to-the-touch Teflon®-coated surface.

Packaged twelve 20 fluid ounce (15.5 oz. net weight) cans per case.

**As Low As
36¢/fl.oz.**

MSA1000 Dry Paintable Release

USING ZINC STEARATE? TRY MSA1000!

A PTFE dispersion of a white, waxy, low molecular weight polymer. Useful for high temperature compression molding. Works well on epoxies, nylons, polyurethanes, polystyrenes, acrylics, polypropylenes, phenolics and TPR. Parts may be post-finished, as **MSA1000** does not transfer to the part.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

**As Low As
37¢/fl.oz.**

MS3015 Mold Saver

MS3015 protects against rust and corrosion on all metal surfaces exposed to weather and moisture and leaves a barrier that lasts up to six months for indoor storage of bare metal parts. This industrial strength mold saver fights oxidation and neutralizes corrosive deposits, displaces moisture and lubricates. **MS3015** is a transparent, oily film that is used in the molding industry to protect molds during shut-down time. It does not require a separate cleanup step. In most cases, molds can be put into production direct from storage. Once burned off, bleedout from ejector pins is minimized. Great for rotational molding!

Packaged twelve 20 fluid ounce (12.5 oz. net weight) cans per case.

**As Low As
21¢/fl.oz.**

MS100 Heavy Duty Silicone Lubricant

MS100 is a multipurpose, 6% high viscosity silicone spray for general maintenance applications that can smooth the flow of production by reducing friction and binding. It can be used in molding, cutting, sawing, and slicing operations where friction or sticking decreases output. An excellent product to prevent the formation of rust, static electricity, or the buildup of inks and adhesives. It is odorless and stainless in most applications.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

**As Low As
16¢/fl.oz.**

MS22/80 Natural Citrus Cleaner

MS22/80, created out of concern for the environment, is a natural citrus cleaner unusually effective as a mold cleaner as well as for removal of adhesives, grease, oil stains, road tar, rubber marks, residue from decals, heel marks, graffiti, lipstick, release agents, and even soap film. Use where chlorinated solvents are not recommended. Can be used safely on most substrates, including painted surfaces, glass, porcelain, concrete, and is compatible with some plastics. Safer than many products, and can be water removed. **LEAVES NO RESIDUE OR FILM!**

Packaged twelve 20 fluid ounce (15 oz. net weight) cans per case.

**As Low As
34¢/fl.oz.**

MS22/90 Heavy Duty Cleaner/Degreaser

MS22/90 does not contain any chlorinated solvents. It is recommended for heavy duty cleaning and degreasing jobs when effectiveness and strong action are needed to accomplish the task. This product is useful on machinery, floors, work areas, and for degreasing metal parts. It is not recommended for use on electrical components or contacts, nor is it recommended for use on a running motor.

MS3000 Rust Penetrant with Teflon®

USING WD-40™? TRY MS3000!

MS3000 is an all purpose penetrant, moisture displacer, rust preventive, lubricant and cleaner. It protects bare metal against rust and corrosion for up to six months of indoor storage. **MS3000** is also an excellent lubricant and penetrant. Now a new formula with Teflon® added for even better lubrication. This all purpose product is an invaluable part of any plant operation and tool kit. Independent tests show CAMIE performs better than most popular brands in depth of penetration, speed and lubrication.

Packaged twelve 16 fluid ounce (11 oz. net weight) cans per case. Larger can than most over-the-counter rust penetrants.
