

# Custom Barrel Insulation Quote Request Form

To request a quote, simply call 800-627-1033 with the following information:

CUSTOMERNAME: \_\_\_\_\_ CONTACT: \_\_\_\_\_

CUSTOMERNO.: \_\_\_\_\_ PHONE NO.: \_\_\_\_\_ FAX NO.: \_\_\_\_\_

## SPECIFICATIONS

MACHINE MAKE: \_\_\_\_\_ MODEL NO.: \_\_\_\_\_

SIZE: \_\_\_\_\_ (millimeters/inches) OUNCE CAPACITY: \_\_\_\_\_ (ounces)

MOLDING PROCESS:  Injection  Extrusion  Blow Molding  Thermoset

TYPE:  Vented  Bell End  Straight End

### MEASURING INSTRUCTIONS:

- Measure from face of flange to first thermocouple.
- Measure from first thermocouple to second thermocouple.
- Follow suit through front of barrel measuring between thermocouples.
- Measure circumference with tape measure. Always measure O.D. of heater band. If there is a junction box, measure over it.
- Record dimensions on diagram below.

### HINTS:

- The rear of the machine is where the hopper is.
- Always measure machines from operator side.
- The front blanket will end at the large diameter of the barrel, right behind the nozzle adapter.
- The measuring tape should fit snug, no slack.

If your barrel has more than 3 thermocouples, continue measuring in the same manner as above and record dimensions below.
