

Unique Blend of High & Low Viscosity Silicone

MS100 Heavy Duty Silicone Lubricant & Release Agent

A unique blend of high and low viscosity silicones designed to achieve optimum release properties. A thin film is all that is required, avoid overspray as mold release may transfer to part. Also useful as a general purpose lubricant for maintenance, sewing, and material handling applications.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

CASES AND CANS		
PART NO. MS100	PRICE/CASE	PRICE/CAN
1-9 Cases (1-119 Cans)	\$49.80	\$4.15
10-24 Cases (120-299 Cans)	\$48.60	\$4.05

12 Cans/Case Can Size: 13 oz. Net Weight

Useful for High Temperature Compression Molding Applications

MSA1000 Dry Lubricant & Release Agent

White, waxy, low molecular weight polymer useful for high temperature compression molding. Also works well on epoxies, nylons, polyurethanes, acrylics, polypropylenes, phenolics, and TPR. Will not transfer to parts.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

3% Silicone Agent Complies with FDA Regulations

MS888 Silicone Release Agent

Contains 3% silicone content and a dry-type spray pattern that is effective as a parting agent for plastic resins including acrylics, ABC, polystyrenes, polyesters and rubber. Active ingredient complies with FDA regulations.

Packaged twelve 20 fluid ounce (13.5 oz. net weight) cans per case.

Excellent General-Purpose Cleaner Leaves No Residue or Film

MS1080 Paintable Mold Release

The most popular all-purpose paintable mold release agent. Economical to use, MS1080 eliminates costly cleanups and is universally accepted by injection, extrusion, and compression molders. Will not build up and does not interfere with painting, hot stamping, vacuum metalizing or gluing. Can be used on most substrates, including rubber, acrylics, polyesters, polystyrenes, and cellulose.

Packaged twelve 20 fluid ounce (11 oz. net weight) cans per case.

All-Purpose Paintable Fast Evaporating Silicone

MS1480 Paintable Mold Release

This unique paintable release agent contains an extremely efficient polymer that allows the user to post decorate injection molded, blow molded, compression molded or rotational molded parts, in addition, parts can be hot stamped, painted or glued. Developed in response to environmental concerns over ozone depleting chemicals.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

Excellent Choice for Hard to Work Resins

MS1680 Economy Silicone Release Agent

Universal silicone release agent recommended for injection, RIM, rotational molders, extruders, and vacuum formers. Can be used with all resins and works most effectively on hard to work resins. May interfere with post decorating. Also works well as a general purpose lubricant.

Packaged twelve 16 fluid ounce (9 oz. net weight) cans per case.

Excellent General-Purpose Release Agent Leaves No Residue or Film

MS1780 Economy Paintable Release Agent

Designed to be the most economical paintable release agent offered, MS1780 is particularly suited for all thermoplastic resins and waxes where post decorating is required. Should not interfere with painting, hot stamping, gluing, or vacuum metalizing. Can be cleaned with a mild solvent or detergent and water.

Packaged twelve 16 fluid ounce (9 oz. net weight) cans per case.

FDA Approved Economy Lecithin Release Agent

MS1880 Economy Lecithin Release Agent

Recommended as a release agent for all types of injection and compression molded plastics. Finished parts can be hot stamped, printed, metalized or painted. Will not build up on mold cavities. Will not migrate or drift through the air. Also useful as a welders's anti-splatter spray. Active ingredient, lecithin, is FDA approved.

Packaged twelve 16 fluid ounce (9.2 oz. net weight) cans per case.

Protects Against Rust and Corrosion for Up to 6 Months

MS3015 Mold Saver

Transparent, oily film used to protect molds during shut down or storage time. Protects against rust and corrosion on all metal surfaces exposed to weather and moisture. Leaves a barrier that lasts up to 6 months for indoor storage of metal parts. Fights oxidation and neutralizes corrosive deposits while lubricating. In most cases, molds can be used directly out of storage.

Packaged twelve 20 fluid ounce (12.5 oz. net weight) cans per case.

Will Not Interfer With Most Binding Applications

MS10701 Zep ParNC Concentrated Silicone Release Agent

A highly concentrated silicone release agent for use when sticking is a problem. Odorless, colorless, heat stable and non-staining, ParNC will not interfere with painting, metalizing, or other binding. An excellent choice as a release agent for plastics, rubber, ceramic and glass parts.

Packaged twelve 24 fluid ounce (15 oz. net weight) cans per case.
