

Keep your documents clean,
organized, protected, and accessible.

An
**ISO & QS9000
Solution!**

Our Quality Control Workstations provide a clean and convenient location to display and protect important information, such as Material Safety Data Sheets or ISO9000 documents.

Our Workstations Can Meet Your Requirements:

- ✓ They provide a clean, stable platform for the collection, display and analysis of data.
- ✓ They are durable in hostile environments.
- ✓ Their high visibility color emphasizes your commitment to quality and safety.
- ✓ They are versatile and adaptable to many applications.
- ✓ They can be custom-designed to meet job-specific needs.

Standard and Deluxe Workstation Models

Most workstations are available in Standard and Deluxe models. Our most popular accessories have been packaged together to provide the most cost-effective workstations for our customers.

Model 1000S

Standard

Includes: (4) clips, clear, hinged cover on writing surface, and 3-legged base.

Model 1000D

Deluxe

Includes all Standard features; plus: adjustable column, side tray, casters, solar-powered calculator, (2) clear, hinged covers for back panel, and utility tray with lock.

*Packaged accessories as noted above may differ slightly on some workstations.
Accessories may be purchased as a package or individually.*

Document Stands

Our line of Document Stands provide a clean, convenient and organized place to collect, analyze, and display data and documentation. High impact polystyrene writing surface and back panel are durable and designed to withstand rough use and harsh environments. Clips hold documents securely in place. Clear, hinged, impact resistant covers protect papers and drawings from dust and spills. Free standing tripod base is standard, although optional mounts may be substituted. Our popular inclined design deters accumulation of debris. High impact yellow polystyrene back panel and writing surface focus attention on location of important information. Various accessories are available.

Information Stands

Our Information Stands provide a clean and convenient location to display and protect important information in most industrial environments. Drop pocket with 3-ring binder mechanism accommodates 250 pages of ISO, QS9000, MSDS, or assembly instructions. ("Right-To-Know Center", "ISO-9000", "QS9000", and "Assembly Instructions" decals are available.) Drop pocket is protected by an impact resistant, clear hinged cover. Writing surface includes 2 clips to hold paper. Inclined design deters accumulation of debris. High impact yellow polystyrene drop pocket and writing surface focus attention on location of important information. Pages can be displayed in either portrait or landscape orientation. With a wide selection of features and options (see page 97), our Information Stands are the versatile, high quality, cost effective solution for information display.
