Plastic Cutting Tools

Gate Cutters Starter Kit

Starter kit contains five different models of cutters ideal for close trimming and accurate cutting in confined areas. Each cutter is uniquely designed to efficiently remove gates and spurs from molded parts.

PART NO.	STARTER KIT INCLUDES:	PRICE PER KIT
GCKIT-1	(MS549J) 4" FLUSH CUT DIAGONAL, (P4-3) 4" THIN DIAGONAL, (P57) 7" DIAGONAL - FLUSH GROUND, (M57RP) 7" HEAVY DUTY DIAGONAL and (M57ER) 7" HEAVY DUTY ERGONOMIC	Call for Pricing

Plastic Cutting Tools...continued

Crescent cutters are designed and manufactured to the highest quality standards. Made of better steel, with a better finish and heat treat, they provide reliability and efficiency. Available for a wide range of plastic cutting and trimming applications, they are ideal for repetitive cutting while removing gates and spurs from molded parts.

Premium Hose Cutter

APPLICATIONS:

- Heater Hose
- Fuel Line Hose
- Copper Wiring
- PVC Pipe
- Garden Hose
- Insulation for Electrical Wiring
- Any other Generally Cylindrical or Elongated Resilient or Semi-Resilient Material

FEATURES:

- Tempered Swedish Steel Blade
- Metal Housing
- PVC Coated Handles
- Cutting Tension Controlled by Steel Spring
- Handle Lock

A reliable, all-metal tool which produces a straight, clean cut on any rubber or plastic hose up to 1 1/8" diameter.
