MS100 Heavy Duty Silicone Lubricant

MS100 is a multipurpose, 6% high viscosity silicone spray for general maintenance applications that can smooth the flow of production by reducing friction and binding. It can be used in molding, cutting, sawing, and slicing operations where friction or sticking decreases output. An excellent product to prevent the formation of rust, static electricity, or the buildup of inks and adhesives. It is odorless and stainless in most applications.

Packaged twelve 20 fluid ounce (13 oz. net weight) cans per case.

5 Case Minimum Purchase

MS610 Economy Silicone Lubricant

Reduces friction and prolongs the life of cutting blades, heat sealing equipment, rollers, conveyors, and chutes. Highly recommended for use with chrome, steel, brass, stainless steel, aluminum, glass, rubber, fabric and most plastics. Provides release and prevents sticking in gluing, sealing and molding operations.

Packaged twelve 20 fluid ounce (11 oz. net weight) cans per case.

MS888 Silicone Mold Release

MS888 is our most popular silicone release agent, with a 3% silicone content and a dry type spray pattern that is useful on most plastic resins including acrylics, cellulose, ABS, polystyrenes, polyesters and rubber. Odorless and nonstaining. The active ingredient complies with FDA regulations.

Packaged twelve 20 fluid ounce (13.5 oz. net weight) cans per case.

MS980 Urethane Release Agent

MS980 is a silicone release agent that is useful for rigid polyurethanes, epoxies, polyesters, TPR and thermoset resins.

Packaged twelve 20 fluid ounce (12.7 oz. net weight) cans per case.

Release Agents

MSA1000 Dry Paintable Release

USING ZINC STEARATE? TRY MSA1000!
A PTFE dispersion of a white, waxy, low molecular weight polymer. Useful for high temperature compression molding. Works well on epoxies, nylons, polyurethanes, polystyrenes, acrylics, polypropylenes, phenolics and TPR. Parts may be post-finished, as MSA1000 does not transfer to the part.

Packaged twelve 20 fluid ounce
(13 oz. net weight) cans per case.

MS1080 Paintable Mold Release

MS1080 is our most popular all purpose paintable release agent. It's economical to use, eliminates costly cleanups, and is universally accepted by injection, extrusion and compression molders, permitting high speed production. Does not build up and does not interfere with painting, hot stamping, vacuum metalizing or gluing. It can be used on most substrates including rubber, acrylics, polyesters, polystyrenes, and cellulose.

Packaged twelve 20 fluid ounce
(11 oz. net weight) cans per case.

MS1680 Economy 3% Silicone Release Agent

MS1680 is a universal silicone type release agent recommended for injection, RIM, rotational molders, extruders and vacuum formers. This product can be used with all common resins. This silicone and all others may interfere with a post decorating step. Care should be taken when needing to paint, hot stamp, vacuum metalize or glue (testing should be performed). Silicone release agents generally are recognized as effective for releasing hard to work resins. In addition to being a release agent, silicones are excellent general purpose lubricants for a variety of industrial applications.

Packaged twelve 16 fluid ounce
(9 oz. net weight) cans per case.
